Reviews

““Interrogating Health Systems In Resource Constrained Settings is a timely and important contribution to the field of global health. The book provides a comprehensive overview of the key challenges and opportunities facing health systems in low- and middle-income countries, and it offers practical guidance for how to improve these systems. This book is essential reading for anyone who is working to improve the health of people living in poverty.””

Dr. Margaret Chan, former Director-General of the World Health Organization

““Interrogating Health Systems In Resource Constrained Settings is a must-read for anyone who is interested in improving health systems in low- and middle-income countries. The book provides a clear and concise overview of the key issues facing these systems, and it offers practical advice on how to address them. This book is a valuable resource for policymakers, researchers, and practitioners alike.””

Dr. Julio Frenk, former Minister of Health of Mexico and former Dean of the Harvard School of Public Health
