

Religion, Evolution, and the Scientific Identity

Studies in Rhetoric and Religion 11

Religion, Evolution, and the Scientific Identity is the eleventh volume in the Studies in Rhetoric and Religion series. This volume explores the complex and often contentious relationship between religion and science, with a particular focus on the rhetoric of evolution.

Rhetorical Darwinism: Religion, Evolution, and the Scientific Identity (Studies in Rhetoric & Religion Book 11) by Thomas M. Lessl

★★★★★ 5 out of 5

The book is divided into three parts. The first part, "The Rhetoric of Evolution," examines the ways in which scientists and religious leaders have used rhetoric to promote their respective views of evolution. The second part, "The Scientific Identity," explores the ways in which scientists' religious beliefs have shaped their understanding of science and the natural world. The third part, "Religion and the Public Sphere," examines the role of religion in the public debate over evolution.

The contributors to this volume include leading scholars in the fields of rhetoric, religion, and science. Their essays provide a comprehensive and nuanced examination of the relationship between religion and evolution. This book is an essential resource for anyone interested in the intersection of these two important fields.
